

GreenWeave is especially suited for comfort installations with high demands on indoor air quality. Typical applications are offices, schools, laboratories, conference centres, and cold work rooms in the food industry.

The Cradle to Cradle certified material is a well-documented and sustainable solution that can be recycled after use. All materials are woven in-house which allows us to control the complete production cycle and fulfill the requirements of ISO 9001-2015.

### CRADLE TO CRADLE MATERIALS / COLOURS - PANTONE / RAL

- GreenWeave filters the supply air as an M6 prefilter acc. to EN779:2012
- Longer washing intervals with staple fibre yarns
- GreenWeave has a dust holding capacity of 25 g/m<sup>2</sup> textile surface acc. to EN779:2012
- Fire tested acc. to EN13501 B-S1-d0
- 100% recyclable and Cradle to Cradle certified material
- Yarn-dyed material, which reduces the amount of wastewater by approx. 2/3 compared to conventional piece-dyed materials
- Oeko-Tex® certified with documentation of the material's sustainability
- Hygienic and washable material that does not cause condensation. Max. shrinkage of 0.5%
- Optional environmentally friendly antibacterial (Antibac-E) treatment for very humid environments (> 85% RH)
- Does not contain antimony
