

MultiWeave is a woven material made exclusively for textile ducting. The strong and competitively priced material makes it a good solution for especially industry and clean room applications.

MultiWeave is a multifunctional material that is highly suited for many different applications, from cleanroom facilities of ISO class 4, industrial facilities and sports halls to equalizing rooms in meat factories.

- MultiWeave is made of multi-filament yarns with a plain surface structure. The filtration of the supply air is equivalent to that of a G2 prefilter acc. to EN779:2012
- The material is cleanroom certified as class 4 acc. to ISO 14644-1 - no shedding of particles
- Fire tested acc. to EN13501 B-S1-d0 without any finishing treatment
- Highly durable material. Tear strength of 110- 210 N acc. to EN ISO 13937:2
- Optional antimicrobial (Antibac) treatment for very humid environments (> 85% RH). The Antibac treatment may be harmful to the external environment

DIRECTIONAL AIR DISTRIBUTION

Laser cut holes and/or nozzles will provide a directional distribution of the air. Avoid condensation.

5 DIFFERENT PERMEABILITIES

The variety of permeabilities enables very accurate dimensioning for a low air pressure and energy optimization.

STRONG MATERIAL

The multifilament material has a high tenacity and is therefore very strong and durable.

CUSTOM COLOURS

Available in a number of standard colours. At additional cost we can supply custom colours according to the Pantone/RAL systems.

APPLICABLE FOR CLEAN ROOMS

Due to the unique fibres the material is well suited for clean rooms as it meets ISO Class 4.

OEKO-TEX® STANDARD

Approved by the international Oeko-Tex organisation to document the sustainability of the material.

FIRE RETARDANT

Complies with DS 428, B-s1, d0 and EN 13501-1 fire standards. The fire retardants cannot be washed out of the textile.

KE FIBERTEC WEAVING MILL

All materials are woven in-house which allows us to control the complete production cycle and fulfil the requirements to our ISO 9001 system.

MultiWeave®

Durable and versatile
textile duct material
