

# cooling and ventilation shops and supermarkets

## KE Fibertec

- efficient cooling  
and ventilation for  
shops and  
supermarkets

KE Fibertec provides efficient cooling and ventilation for shops and supermarkets. In food sections we offer directional delivery of air at low temperatures in order to ensure that produce etc. stay fresh. In shops and non-food sections textile ducts from KE Fibertec ensure customer comfort with draught-free air distribution.

KE Fibertec ducts are hygienic and can easily be taken down for washing. KE Fibertec's specially made High Dust Holding Capacity materials extend washing intervals considerably and reduce maintenance costs.

A wide product range enables KE Fibertec to offer the best possible solution for shops and supermarkets.

We offer many well-documented reference projects:

ASDA, England

Elgiganten, Sweden

IKEA, Sweden

Supermarket, Netherlands Antilles

Makro, Netherlands Antilles

Sainsbury's, England

#### Benefits of KE Fibertec ventilation ducts:

- Efficient and uniform distribution of cool air.
- No draught and no dead zones.
- Free of condensation - no insulation required.
- Lightweight textile ducts that may be fitted to any type of ceiling.
- Easy maintenance - no growth of microorganisms.
- Silent air distribution - down to 25 dbA.
- Low operational costs due to high dust holding capacity of materials.
- Specially developed design programme.

#### CHOOSE SUSTAINABLE VENTILATION

All KE Fibertec textiles are tested and approved according to the Oeko-Tex® Standard 100.

Our production is certified according to the ISO 14001 standard (Environmental Management System).

Transportation and disposal of textile duct systems produce less CO<sub>2</sub> pollutants than conventional steel ducts.
