

cooling and ventilation shops and supermarkets

KE Fibertec
- efficient cooling
and ventilation for
shops and
supermarkets

KE Fibertec provides efficient cooling and ventilation for shops and supermarkets. In food sections we offer directional delivery of air at low temperatures in order to ensure that produce etc. stay fresh. In shops and non-food sections fabric ducts from KE Fibertec ensure customer comfort with draft-free air distribution.

KE Fibertec ducts are hygienic and can easily be taken down for washing. KE Fibertec's specially made High Dust Holding Capacity materials extend washing intervals considerably and reduce maintenance costs.

A wide product range enables KE Fibertec to offer the best possible solution for shops and supermarkets.

We offer many well-documented reference projects:

ASDA, England

WinCo Foods, San Marcos, CA

IKEA, Sweden

Texas Furniture, TX

WinCo Foods, Lewisville, TX

Sainsbury's, England

Benefits of KE Fibertec ventilation ducts:

- Efficient and uniform distribution of cool air.
- No draft and no dead zones.
- Free of condensation - no insulation required.
- Lightweight fabric ducts that may be fitted to any type of ceiling.
- Easy maintenance - no growth of microorganisms.
- Silent air distribution - down to NC-20/25.
- Low operational costs due to high dust holding capacity of materials.
- Specially developed design programme.

CHOOSE SUSTAINABLE VENTILATION

All KE Fibertec fabrics are tested and approved according to the Oeko-Tex® Standard 100.

Our production is certified according to the ISO 14001 standard (Environmental Management System).

Transportation and disposal of fabric duct systems produce less CO₂ pollutants than conventional steel ducts.
