

# comfort ventilation offices

KE Fibertec  
- we supply  
tailored and  
sustainable ven-  
tilation solutions

KE Fibertec contributes to the wellbeing of all employees with air distribution solutions for offices. Halfround KE Interior® fabric ducts, flush mounted with the ceiling, distribute the air without draft.

KE Fibertec supplies fabric ducts in standard and custom colors in order to satisfy all architectural requests.

KE Fibertec's fabric ducts are tailored solutions that complement the architecture and function of each room. At the same time the low noise level supports a comfortable working-environment.

We offer many well-documented reference projects:

Algida Unilever, Turkey

Aronsborg Baalsta, Sweden

Dell Technical Support Centre, USA

Guldfaageln Arena, Sweden

Astra-Zeneca, UK

BodyMedia, USA

#### Benefits of KE Fibertec ventilation ducts:

- Efficient and uniform distribution of fresh air.
- No draft and no dead zones.
- Lightweight fabric ducts that may be fitted to any type of ceiling.
- Easy maintenance.
- 1600 custom colors ensure that the ducts can be tailored to any architectural design.
- Silent air distribution.
- Clean air as the systems filter out dust particles from the supply air.
- Ideal for retrofit applications.

#### CHOOSE SUSTAINABLE VENTILATION

All KE Fibertec fabrics are tested and approved according to the Oeko-Tex® Standard 100.

Our production is certified according to the ISO 14001 standard (Environmental Management System).

Transportation and disposal of fabric duct systems produce less CO<sub>2</sub> pollutants than conventional steel ducts.
